Technical Specifications

Visible Graphic:
L2000mm x W850mm

Artwork supplied:
L2080mm x W850mm

Applying graphics:

1. Apply the top bar firmly to the top of the graphic

2. The cassette has a gummed section for applying to the actual graphic, when presenting the graphic peel tape from gummed section and firmly apply to the rear of the graphic print

3. *Recommended* - Turn over the graphic and apply additional tape for extra bonding (not supplied)

4. **Stop**

5. Firmly hold the graphic by the cassette section

6. Whilst your friend removes the tension key (found on the side) gently allow the spring tension to pull your graphic within the cassette, do not rush this as you will run the risk of tearing your graphic

7. When fully enclosed into the cassette, you have loaded the graphic, store the key under the cassette

8. Follow the next images to assemble

9. Reverse for collapsing the display
